

QBSA Licensing

How we're protecting our customers

- Elbowroom offers the protection of appropriately licensed project supply and management;
- We ensure the maintenance of industry-recognised installation and safety standards;
- QBSA offers investigation of a range of customer complaints regarding works performed, including unlawful building work;
- Licensing ensures that our work is recognised for quality and standards compliance; and
- We support the requirement that all rack & shelving suppliers should be QBSA-licensed. Are yours?

Elbowroom is fully licensed by the Queensland Building Services Authority under Part 38 of QBSA Regulation 2003 in the category of Non Structural Metal Fabrication & Installation. Under the Regulation, the installation of racking or shelving which is fixed to the floor is regarded as "building work", and requires an appropriate QBSA licence, the scope of which covers the preparation, fabrication and erection of non structural metal components.
